

Crystal Tourniket

Completely constructed from glass with only the most minimal stainless steel frame and cappings, the Crystal Tourniket is the most transparent revolving door available. Despite its transparency however, it makes a striking entry to any building. It is available with three or four door wings and with manual or automatic operation.

Options

- Low torque drive unit with Speed Control

* Only with collapsible door set option. Requirements are subject to local regulations

Emergency Egress

If equipped with a collapsible door set, the Crystal Tourniket can be installed in an emergency exit. In case of an emergency the door set will unlock and the door wings can be collapsed together to create an open passage way. (Escape route requirements are subject to local regulations).

Technical Specifications

Power Supply:	200-240 VAC, 50/60 Hz
Motor:	AC motor, 3-phase

Power Consumption	
Operating:	150W
Stationary:	75W

Ambient Temperature:	-20°C to +50°C
Fuse:	External Power supply fused with 16A slow
